WE BUILD LEADERS OF CHARACTER

WE BUILD LEADERS OF CHARACTER

COLLEGE ACCEPTANCE

Since 2003, Hargrave has maintained a 100% college acceptance rate. Hargrave graduates are warmly welcomed onto campuses across the nation in recognition that a Hargrave graduate has the skills and character necessary to face the challenges of college with the determination and self-discipline needed to succeed.

US SERVICE ACADEMIES

Gaining admission to a US Service Academy is a highly competitive and rigorous process that requires exceptional academic achievement, leadership potential, physical fitness, and character. A Hargrave Education can provide students with the tools and experience necessary to improve their likelihood of admission to a US Service Academy. Many Hargrave graduates have gone on to attend top-tier military academies and succeed in their military careers.

BEST-FIT COLLEGES AND UNIVERSITIES

Our College and Career Center staff works with students to develop their awareness of college admissions requirements and scholarship availability. College campus visits and college fairs are scheduled during the academic year. Cadets select the right college for them, not simply the most prestigious or popular college.

CHARACTER

Since 1909, Hargrave's uncompromising commitment to building leaders of character has set us apart among the myriad of school choices available to discerning families seeking more for their young men. Self-discipline, personal responsibility, and ethical decision making are just the beginning of each Cadet's journey through Hargrave's immersive character development experience.

Developing good character, the ability and desire to do what is right, is a critical pillar in Hargrave's continuing mission to build young men into leaders of character.

Character Development is an interactive process at Hargrave. It is not just taught by maintaining high expectations of proper behavior but also in the daily interaction between Cadets and adults at the Academy.

Hargrave's leadership and character development experience builds the leaders of tomorrow today.

FAITH

All Cadets at Hargrave take a one semester Bible survey course as part of their graduation requirements. Additional Bible and religion courses, including dual enrollment courses, are available for students as well.

Worship is a focal point at Hargrave, with twice weekly chapel services required for all Cadets.

Though firmly rooted in and committed to the Christian faith, Hargrave welcomes students of all faiths and religious backgrounds. Students are encouraged to explore and develop their faith while at Hargrave and to lay a firm foundation upon which to build their lives.

ATHLETICS

Organized athletic teams exist for all grade levels. Our varsity teams compete in the Virginia Independent Conference, consisting of private boarding, military, and day schools. Teams also compete in non-conference matches versus local public schools when possible. From seventh grade to Post Graduate, all Cadets have an opportunity to share in a storied tradition of winning with integrity. Every Cadet is expected to demonstrate good sportsmanship, camaraderie, and competitive spirit.

Fall Sports

- Cross Country
- Football
- Soccer

Winter Sports

- Basketball
- Swimming & Diving
- Wrestling

Spring Sports

- Baseball
- Golf
- Tennis
- Track and Field

ACADEMICS

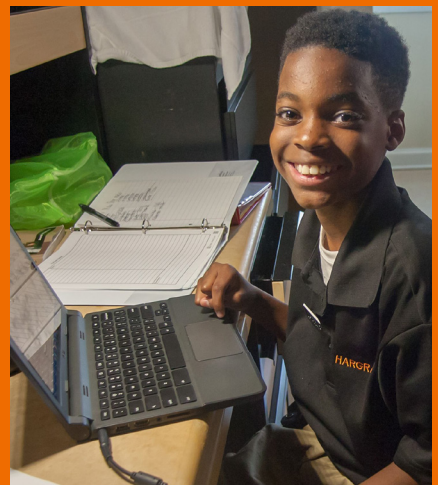

Hargrave's faculty is a dedicated group of quality instructors possessing a unique blend of experiences and backgrounds. Each instructor is selected for teaching ability and commitment to the academic and co-curricular experiences the Academy offers its Cadets. Over 75 percent of our faculty and administration have advanced degree coursework, and all are encouraged to pursue professional development for the betterment of themselves and their students.

Hargrave offers courses suitable for a wide range of student capacities and capabilities. Students have the opportunity to take standard and Honors courses for high school credits. Advanced Placement courses are available, which yield college credit with the passing of an exam. Dual Enrollment courses, taught by certified teachers, automatically result in college credits upon successfully passing the class.

Hargrave's How to Study program has long been an integral part of each Cadet's experience at the Academy. More than just a class, How to Study is an integrated program for both the Upper School, grades 10-12, and the Middle School Center for Integrated Studies (CIS), grades 7-9. Cadets use the program daily and are held accountable for applying its principles in their day-to-day interactions with their teachers, who incentivize its use and ensure proper application.

Hargrave builds young men into leaders of character prepared for lifelong success.

OUR MISSION

At Hargrave, we take pride in our mission, and understand the gravity of our responsibility to our Cadets and their families. Our approach to the development of boys focuses not just on producing a stellar student or star athlete, but also on building the individual into a man of character.

On any given day, you'll find a school with a diverse collection of young men at various levels of progress. In time, each Cadet will build greater self-esteem, move out of the teenage shadows, and unlock their potential to be a capable young leader.

Cadets join Hargrave with the goal of preparing for a successful college experience, striving to gain admission to prestigious colleges, universities, or U.S. service academies that might have been out of reach in their previous academic settings.

Our experienced faculty and staff are deeply committed to nurturing your child's unique strengths, interests, and aspirations. Through one-on-one guidance, small group discussions, and extracurricular activities, we empower our Cadets to overcome challenges, take ownership of their learning, and build meaningful relationships with their peers and mentors.

Our emphasis on mentorship fosters a sense of community and belonging within the Academy. By connecting your child with role models who share their passions and goals, we create a network of support that extends beyond the classroom, instilling a lifelong love for learning and the confidence to pursue their dreams.

Exceptional leaders are not simply born, but rather developed through a combination of training and experience. At Hargrave, your son will cultivate self-confidence, initiative, respect for authority, patriotism, citizenship, followership, and leadership abilities. Together, we can make a lasting impact on your son's life and future.
